Ramin Melikov (melikov2)

Chris Zhu (cjzhu2)

Project Progress Report

1) Which tasks have been completed?

So far, we have successfully begun mining through the NYT Corpus data and have already gotten the specific data that we need to replicate the paper into our Jupyter Notebook.

2) Which tasks are pending?

The next steps we need to complete include implementing the algorithm used in the paper and of course running the experiment from the paper using said algorithm.

3) Are you facing any challenges?

No challenges thus far.
